#### 4. Explain the changes you have made in the website.

We change the background color from plain white to Gradient Blue and Purple. This gradient is inspired by the color of the logo. The typeface used are Aharoni for the Header, Calibri light for the menu tab, and Calibri for the rest. The menu tab is moved from the top to the left side. We put a huge logo of the presidential communications in the background. The time and date are enlarged since it is very important in a newswire website. We also include social media links to their site in order to promote their social media accounts.

Overall, the design is refined to look modernize also the design majorly revolves around the idea of being pleasing and cohesive with unique aesthetics to no longer look plain.
